LMR[®] Tool Kit

TK-400/400-75EZ-HC

This hard case tool kit with hard foam cut-outs for LMR 400 and LMR 400-75. This tool kit is the second in a series of hard case kits that keep all of the tools required for a specific job all in one place. All it takes is a quick flip for the lid to make sure you have everything you need.

660-1266

TF-047

TF-047 is a versatile micro-coaxial cable ideal for high-density applications. Available in bulk or cable assembly with a wide selection of interfaces, TF-047 offers high performance and reliability in a compact footprint.

StripFlex[®] 393

SFT-393 bridges across two critical areas - supporting high power handling into microwave frequency range. Its durable construction makes it an ideal choice for a wide range of applications in harsh environment.
